

RESCUE, EDUCATE, REHABILITATE

Chances Mini Horse Rescue

President's Message

Hello and Happy November to all. Thanksgiving is right around the corner and I am so thankful for the many blessings in my life. I hope you all have a peaceful and blessed holiday.

CMHR has been very busy the last few weeks. We have taken in eight new horses and after their 4 week evaluation period they will each be ready for adoption. We will be listing them very soon.

We are also preparing to open our sales barn. Shannon and Marty have been working very hard with Mona getting the website all updated and ready to go. Thank you ladies.

I am preparing to contact all State Coordinators to

outline their duties and also to present them with a list of all the foster homes within their state and work together with them to bring about more foster homes. With the increase in numbers I would really like to see more foster homes ready to take in horses as they come into rescue.

Jess Freer has generously offered to make a CMHR manual. Thank you very much Jess!

I want to take a moment to thank Kristine Yeadon, our State Coordinator from Wisconsin. Kristine executed a rescue of 10 ponies that were destined to be part of a "pony roast". I applaud her efforts in getting these ponies off of that particular farm. She has kept seven of them to work

with and surrendered three of them into our rescue. It is nice to know that they will not be part of a barbecue.

Many thanks to our foster homes who have so generously opened their barn doors to our newest rescues. We could not do this without you.

Warm Regards,
Connie Parr

SPONSOR A FOSTER HORSE

For 10.00 per month you may sponsor a foster horse of your choice. This is a great way to help a horse! Each time you sponsor a horse we will provide you with an update on

"your" sponsor horse along with any updated photos. Sometimes it is difficult to get updated photos when needed, but we will do our best to keep you informed about your sponsor

horse. This program really did well for awhile and now that we have more horses in custody it would be fantastic to see it pick up again!

Board Of Directors:

- Connie Parr—President
- Vice President - Open
- Gini Acton—Treasurer
- Shannon Hobbs—Secretary
- At Large: Marty Garrison, Wendi Weinstein, Susan Stanley, Kitty Campbell

Billy is a new rescue and will be ready for adoption soon

Meet Billy. This is another “Billy” not to be confused with our former black pinto horse Billy Bob who was adopted last year. Billy is 4 to 5 years old, 36” and is bay in color. He has been recently gelded upon entering our program.

Billy is being well handled and socialized in foster care. He is friendly and learning manners and boundaries and loves to go on walks. Billy has been known to kick at people in certain situations, so with this in mind Billy will not be appropriate for a child or a newbie. Although Billy is not wild or mean, he

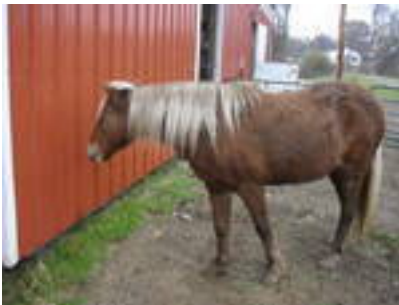

requires a home with experienced horse

people who have the time and expertise to continue to reinforce his ground manners and further his education. Billy does have a lot going for him since he is so adorable and completely healthy and young. He has been fully vetted and is ready to go November 4th. The future looks very bright for Billy. Billy is located in Kinmundy, Illinois.

Respectfully,
Marty Garrison

MEMBERSHIP DUES SLASHED IN HALF

FAUNA

CMHR has slashed Membership dues from \$25.00 to \$12.50. Won't you join us today?

When you become a member of CMHR you will receive a nice welcome packet with a Certificate Of Membership and a few gifts.

The horse pictured at left is Fauna—she is being fostered in Wisconsin. She is 11 years old and is blind in her left eye and has a slight problem with her right eye also. She will be available soon.

Cobwebs are hazardous in a barn. Please be sure to keep the cobwebs knocked down to prevent fire.

TEN IS READY AND WAITING TO BE ADOPTED!

Ten is a two year old big hackney type pony gelding measuring in at 13+ hands high. He is a flashy rich bay color with white socks. This boy is in your face and loving to a fault and helps around the barn. His foster mom says he can be a bit skittish at some things, but once he sees

what scared him he is ok with it and moves on. He is ready to train your way: ride him, drive him, show him; the sky is the limit for Ten. What kind of kid wouldn't want to own a big fancy mover like this?

Ten is located in Oklahoma and ready to be adopted by a loving family that will give him a job or two to do.

Please email any board member if interested.

CMHR TO HELP FOSTER HOMES

We would love to see many more foster homes in each and every state so we have changed our foster program a bit.

We realize that many people really want to help and foster, but simply cannot afford to so if you are in a position to foster but do not have the extra funds, CMHR will take care of expenses pertaining to your particular foster horse while the horse is in your care. If you would like to foster and do not need the

extra assistance that is wonderful also. We just want to give everyone whom chooses a chance to be a foster.

Please go to our website to read about the foster policies and procedures. You will also find the foster home application there.

You must be a member to foster and we have also cut our membership fee in half so there really is no better time than now to become a foster home. We never know when a situation will arise and it is nice to have places already lined up.

Thank you!

iGive.com and Goodshop.com

Christmas is right around the corner and if any of you do the majority of your Christmas shopping online you have the opportunity to help CMHR every time you make a purchase.

iGive, GoodShop and Good-Search.com are great search engines that provide CMHR with a donation while you do your Christmas shopping.

Just a friendly reminder that if you haven't stocked up on your winter hay now is the time!

All you have to do is select CMHR as the charity you wish to donate to before you begin shopping. It's as simple as that!

iGive has 730 stores to choose from.

TRANSPORTATION FOR ADOPTED HORSES

In these times of questionable economics people may shy away from adopting a horse because of high shipping rates. Please don't let that stop you from inquiring. CMHR tries to help with shipping in any way that we can. We may know of someone coming your way or be able to help find someone to help.

Hauled Right Shipping gives a generous discount on horses adopted from CMHR that are in need of transportation. They can be reached at:

www.hauledright.com

Or call toll free
